

DPPA Results Framework

End-Year Data (as of 31 December 2022)

Note: Indicators in blue also appear in the Peace and Security Reform Benefits Tracker

Theory of Change: If DPPA deploys the full range of its resources based on cross-cutting analysis, in collaboration with others within the UN system, and in partnerships with regional, national, and local stakeholders, drawing on an internal culture shaped by a commitment to learning and innovation, it will contribute to the prevention and resolution of violent conflict and to sustainable peace.

Goal 1: Contribute to preventing and resolving violent conflict and building resilience

Strategic Objective 1: Action-oriented analysis

Risks and assumptions: conflict trends will continue along current trajectories identified in key documents (e.g. Pathways for Peace), including the important role of transnational criminal networks, role of violent extremism, impact of climate change, and the role of socio-economic drivers of conflict; sufficient resources will be made available for DPPA to undertake early warning analysis on priority areas, though resources will not grow beyond current levels; key parts of the UN system (e.g. EOSG) will continue to treat DPPA as a lead entity for identifying early warning risks; geopolitical and national positions are likely to remain a challenge to some multilateral efforts at conflict prevention. DPPA has the capacity to conduct multidimensional analysis internally, but is intending to increase its collaboration with other departments and partners. Despite the pandemic, DPPA will continue to adapt and deliver against its Strategic Plan.

**Strategic Objective 2:
Inclusive peacemaking**

Risks and assumptions: National, regional, and local entities will continue to seek partnership with DPPA, though sovereignty barriers to action within countries will remain a recurrent challenge; DPPA will be tasked to monitor and report upon a wide range of settings, regardless of whether the department leaderships views it as a priority for prevention and sustaining peace; conflict dynamics will continue to be influenced by socio-economic and political marginalization, requiring inclusive peace processes; national peace processes will continue to suffer from a lack of inclusivity, especially women; DPPA will receive sufficient resources to deploy capacities to support inclusive peace processes in priority areas; the UN will continue to receive requests for technical and political support, including in the area of elections; core resources for DPPA's work will be provided in a timely manner to facilitate the deployment of its capacities. Despite the pandemic, DPPA will continue to adapt and deliver against its Strategic Plan.
