

RESULTS FRAMEWORK FOR DPPA'S 2023-26 STRATEGIC PLAN

GOAL 1 PREVENTING AND RESOLVING VIOLENT CONFLICTS AND SUSTAINING PEACE

Strategic Objective

1

Theory of Change: If DPPA provides integrated inclusive, articulate, and actionable analysis, then UN responses will be more informed, timely and targeted, contributing to conflict prevention and resolution and sustaining peace.

Analysis

Risks and assumptions: Increase in systemic and interconnected and cross-border nature of conflict (e.g., climate, food insecurity, energy) and underlying socio-economic dynamics. Issues of inequality and exclusion will be key to conflict dynamics, demanding a focus on inclusion as well as integrating human rights and humanitarian lenses into political analysis. Sufficient resources will be made available for DPPA to undertake early warning analysis on priority areas although there is a risk that resources may decline. DPPA will be able to attract and retain suitably qualified staff and analytical tools will be available.

Outcome	Indicators of Achievement	Target 2023
Outcome 1.1 Timely, multidimensional and gender-sensitive analysis for better informed decision-making for the UN and its partners	% of departmental analytical products that contain gender-sensitive analysis	62%
	# of multidimensional analyses incorporating inputs from across the Secretariat and wider UN System	3500
	# of memos/notes to ASGs and USGs that present actionable options, alternative viewpoints, or proposals	444
	# of Common Country Analysis (CCAs) informed by departmental analysis	26
Outcome 1.2: Effective use of data and analytics for better insights and recommendations to senior leadership, the wider UN system, and Member States	# of documents for UN principals, UN organs and Member States that use data visualizations and narrative techniques to deliver insights	236

Strategic Objective **2**

Crisis response and support to “good offices”

Theory of Change: If DPPA’s responses are timely and inclusive, then the UN system will be better able to respond to emerging and ongoing crisis in ways that have a positive impact on local communities.

Risks and assumptions: Key parts of the UN system will continue to treat DPPA as a lead entity for identifying early warning risks. Geopolitical and national positions will remain a challenge to some multilateral efforts at conflict prevention. UN able to operate, political space available for responses, and political actors are willing to work with DPPA. SPMs and other entities supported by DPPA are provided with adequate resources and capacities, and will be able to attract and retain suitably qualified staff.

Strategic Objective **3**

Longer-term prevention and peacebuilding support

Theory of Change: If DPPA supports long term development processes, based on local ownership, inclusion and national priorities and working with UN and other partners (e.g., IFIS, regional orgs), then strategic peacebuilding and prevention effects will be enhanced.

Risks and assumptions: National, regional, and local entities will continue to seek partnership with DPPA, though sovereignty barriers to action will remain a challenge. Conflict dynamics will continue to be influenced by socio-economic and political marginalization, requiring inclusive peace processes; national peace processes will continue to suffer from a lack of inclusivity especially women; resources will be made available for DPPA to deploy capacities although there will unlikely be any increases in funding.

GOAL 2 A MORE EFFECTIVE MULTILATERAL ARCHITECTURE FOR INTERNATIONAL PEACE AND SECURITY

Strategic Objective 4

Support to UN bodies

Theory of Change: If DPPA continues to enhance its administrative, analytical, and technical support to UN bodies, facilitating Member State decision making and communicating with wider UN stakeholders, then the multilateral architecture across the humanitarian-peace-development nexus for international peace and security will be more effective and credible.

Risks and assumptions: Other UN entities will collaborate with DPPA in producing joint analysis and contributing to intergovernmental processes; sustained political support for the UN to support the rights of historically marginalized people; Security Council continues to meet and agree monthly agenda although challenges in terms of its willingness and ability to take unified decisions on key peace and security issues; political support to the PBC.

Risks and assumptions: Willingness of regional, national, and local actors to engage in partnerships with DPPA; capacity of regional and sub-regional organizations to jointly support strategic development; resources provided to DPPA to provide technical substantive, normative and strategic support to partners

Outcome	Indicators of Achievement	Target 2023
